

NAME: Visit to Rabindra Sarobar, Kolkata

Organized by: Department of BOTANY

DATE: 11.12.25

VENUE: Rabindra Sarobar, Kolkata

No. of Participants:

Students: Semester 1 (Major) Students (28 Students)

Teachers: 2

**Brief Description:** The educational field visit to the Rabindra Sarobar Lake covered a major span of this sprawling expanse including the key sites such as the lily pool (in full bloom), the Miyawaki garden, the medicinal plants section, and the butterfly garden. The programme aimed to familiarise students with inflorescence types in the locality.

**Outcome:** The visit enhanced students' experiential learning through the variety of plants and their inflorescence types present in the area, thereby strengthening their understanding of the theoretical classroom concept. This visit served as a foundational step toward establishing long-term academic and field-based collaboration.
