

## Seminar Report

- Name of the event: State-level Seminar on Chemical Safety and Sustainability
- Organized by: Depart of Chemistry, Shri Shikshayatan College, in collaboration with Indian Photobiology Society
- Date: 23/11/2024
- Venue: Shri Shikshayatan College
- Number of participants:
  - Students: 82
  - Faculty: 10
- Resource persons:
  - Dr. Punarbasu Chowdhury, Assistant Professor, Department of Environmental Science, University of Calcutta, Kolkata, India. (Phone No. +919831140980, e-mail: pcevns@caluniv.ac.in )
  - Dr. Manas Kumar Panda, Assistant Professor, Department of Chemistry, Jadavpur University, Kolkata – 700032, India. (Phone No. +917551894338, E-mail: manaspanda.chemistry@jadavpuruniversity.in)
- Brief description of the event: A One-day State-level Seminar was organized by the Chemistry department, Shri Shikshayatan College in collaboration with Indian Photobiology Society on “Chemical Safety and Sustainability” on **23<sup>rd</sup> November, 2024**. In the technical sessions, Dr. Punarbasu Chowdhury delivered a lecture on Microplastics and their effect on the environment and Dr. Manas Kumar Panda delivered an interesting lecture on safety practices to be followed in the Chemistry laboratory. PG students and research scholars from various colleges gave online presentations on various topics related to chemical safety and sustainability, and our students gave poster presentations on chemical safety.

- Outcome: Students from different colleges participated in this interactive and enriching seminar. All students actively interacted with the speakers and learnt the critical importance of chemical safety and sustainability.
