BRIEF DESCRIPTION OF THE EVENT: The students along with the faculty members paid a visit to the Shuktara Bakery. The bakery is housed by the handicapped and underprivileged male and female. We first went to the workshop where they showed our students how the cakes are baked in bulk by the specially abled people. Our students raised different questions to them with regard to the growth and operations of the bakery. This was followed by a visit to the Home of Shuktara Bakery where the female inmates reside. The gifts that our students took for them brought a smile to their face. They taught the female inmates how to make hand-made jewellerys and pen stands. They danced together and it appeared that all of them have reached a comfortable level with each other.

OUTCOME OF THE EVENT: This academic extension activity of the Department was immensely successful. The visit had helped all of us to realize the challenges and difficulties of the lives of the specially abled persons. Moreover, learning and teaching from each other was an extremely enriching and rewarding experience for all of us.
