Knowledge Services

ICRA Analytics Ltd (formerly known as ICRA Online Ltd), a wholly-owned subsidiary of ICRA Ltd, a leading credit rating agency in India and an affiliate of Moody's Investors Service.

THE COMPANY

ICRA Analytics is a Great Place to Work certified company with presence across Mumbai, NCR, Kolkata and Chennai and an array of offerings for domestic and global clients.

1. We offer knowledge process outsourcing services comprising automated data management and analytical support with high accuracy and quick turnaround to support the business needs of our clients;

2. We provide risk assessment services, including grading services for MSMEs and ESCOs as well as vendor and counter-party assessment tools and services;

3. We implement risk management solutions in credit risk, including internal rating models and expected credit loss for banks, NBFCs and other market participants;

4. We are a trusted provider of data, research and analytics on mutual fund, fixed income and other asset classes to fund managers, investors, lenders and intermediaries;

5. We offer consulting services, tools and solutions on early warning signals, enterprise risk management, risk modelling, portfolio analytics, fund ranking and implementation of regulatory standards to enable our clients to measure, manage and mitigate risks based on traditional as well as alternate data and insights derived from our proprietary models.

We make extensive use of technology and leverage our domain expertise through process automation, building intelligent software, developing cloud-hosted solutions, deploying digital platforms for external and internal customers, etc. We are an ISO 9001:2015 and ISO 27001:2013 certified company, with strong focus on infosec and business continuity to ensure data security, availability and integrity on 24*7 basis.

We are a strong engaged team with diverse qualifications and skills across GAAP, IFRS, financial statement analysis and interpretation, credit risk modelling, financial asset and business valuation, fund research, ESG, structured finance, Python, R, .Net, SQL, Oracle, GIS, etc. We have executed more than 10,000 assignments over the last 20 years and add value to our clients by integrating our deep domain expertise with robust technology framework. Our goal is to provide offerings that are contemporary and we continue to upgrade and supplement our repertoire with a demonstrated focus on continuous learning.

Earning accolades for our services, we were recently awarded as the Top Exporter 2020-21 (ITES – Less than ₹1000 million in FY21) and company with Highest Percentage of Women Employees 2020-21 (IT/ITES – Less than ₹1000 million in FY21) by STPI Export Awards, West Bengal.
