

MEDICAL COMMITTEE REPORT

(2019-20)

- As in every year, the Medical Committee of the college began its annual activity by taking a stock of the First Aid Kit, checking the instrument for BP and BS measurements and other equipments and files of the Medical Room. Accordingly necessary medicines were procured.
- Notices were put up for the students and staff of the college providing information of the medical facilities, discounts and tie-ups with hospitals and nursing homes.
- Dr Jhuma Hazra, who had been associated with the college for many years conveyed her inability to make the weekly visit to the college for general check up of the students and staff. Accordingly the Medical Committee reached out to other doctors and bio-data of some interested doctors were forwarded to the Principal for necessary action so that the weekly visit of a physician in the campus continues.
- Weekly visit continued every Friday by counsellor Smt Sraboni Chowdhury.
- Since most of the events and programs of the Medical Committee are held in the slack period after the exams are over, they could not be organized in 2020 due to the abrupt lockdown of the state in March in view of the Covid-19 Pandemic.
