Mr. Sumon Banerjee, the Chief Operating Officer of Ecofunomics LLP

Date: 17th January 2026

Time: 10 am to 11.30 am

Venue: Room 309

Number of participants: 28 students (Sem III)

Brief Description of the activity:

Ecofunomics LLP, established on 16/02/2018 under the Ministry of Corporate Affairs, Government of India, has grown into a globally recognised organisation in the fields of education, research, and data intelligence. The company is actively engaged in supporting research initiatives funded by ICSSR, offering comprehensive assistance that encompasses survey design, field data collection, data analytics, report writing, and publication. As an IBM Learning Partner Ecofunomics LLP delivers industry-relevant training programmes in areas such as Data Analytics, Artificial Intelligence, Research Methodology, Political Analytics, Policy Research, and Emerging Technologies. The organisation also offers students diverse field exposure as part of their Summer Internship programme, providing practical experience and skill development opportunities aligned with current industry requirements.

Outcome:: Enables the practical application of classroom knowledge in areas such as data analysis, surveying, reporting, and research. Assists in confirming interest within specific geography disciplines (e.g., environmental management, urban planning) and provides insight into career paths, thereby reducing uncertainty. Transitions individuals from theoretical study to real-world problem-solving in professional environments, representing a crucial phase in professional growth.
