

REPORT

EVENT : DATA VISUALISATION WORKSHOP AND HANDS-ON
TRAINING WITH ADVANCED MS EXCEL

Organised by : Department of Economics

Date : 18th August, 2026 [Tuesday]

Time : 2pm to 4:30 pm

Venue : Room 204

Number of participants : 22 students from Semester 2 [Economics – Major]

RESOURCE PERSONS : (1) Smt. Kavitha Sundararajan

Assistant Professor,
Department of Commerce [Evening]
Shri Shikshayatan College.

(2) Smt. Debarati Banerjee

Assistant Professor,
Department of Commerce [Evening]
Shri Shikshayatan College.

Brief description of the event: The workshop started with introducing and felicitating the resource persons. The session started with data types and scales of measurement, followed by data visualisation tools like histogram, frequency polygon, and boxplot. Pivot tables were taught, including pivot charts and slicers. Finally, logical functions like IF and COUNTIFS, and how they help in preparing data before visualising it (e.g., grouping or counting data quickly for charts) were explained.

Outcome : Students learnt which chart suits which data, as they were explained data types and scales of measurement. The hands-on training on data visualisation with Advanced MS Excel proved to be very helpful for each student, particularly as they are preparing for their forthcoming practical examination for BA/BSc Semester 2, 2026. The resource persons took utmost care to address the queries of each participant in the workshop.
