

Report on Institutional visit to J.C.Bose museum(Bose Institute)

- Name of the event: Visit to J.C. Bose Museum
- Organized by: Department of Chemistry, Shri Shikshayatan College
- Date: 21.04.2026
- Venue: main campus of Bose Institute
- Number of participants:
 - Students: 19
 - Faculty: 2
- Resource persons: N.A.
- Brief description of the event: Students from 1st, 4th and 6th semesters of the department were taken to visit the J.C. Bose museum in the main campus of Bose Institute, Kolkata. They were given a tour of the entire campus including the Lecture Hall, the erstwhile departments of Botany, Chemistry and Physics and the museum which contains the scientific instruments designed by Acharya Jagadish Chandra Bose and archived versions of his research notes. They were also shown a short light and sound show demonstrating the discovery of millimetre waves and associated events.
- Outcome: Students gained meaningful insights into the life and works of Acharya Jagadish Chandra Bose. They were also introduced to the brief history of establishment of the Institute and its role in popularising scientific education and research.
